

About 1step2be

1step2be is the new innovative platform, with the purpose of linking donors and rebounds creators in a place perfectly adapted to it.

1step2be is a social platform, where you receive financial help without the need to spend even a single pound. We use an innovative process of monetising textiles which are exchanged into money during campaigns organised on the portal.

How does it work?

Create and manage your own campaigns and campaigns for your Beneficiaries. 1step2be does not intend to limit the creativity of people who want to create a project. What's more, the more creative, and at the same time sensible and interesting, the better! 1step2be offers an intuitive and simple tool that is adaptive, effective and perfectly intuitive. Our role is to fully support the process of creating and running an effective campaign. Thanks to us you can easily reach potential donors, gathered in the 1step2be helpers community.

With 1step2be everyone can help and it doesn't mean that you have to start a campaign. Just choose a campaign which you wish to support. Pack textiles into bags and arrange a date of their collection. Confirm the weight of textiles as well as the amount of money, gained in the process of textile monetisation and enjoy the difference you made.
